

CORNELL UNIVERSITY OFFICIAL PUBLICATION

Preliminary Announcement
of the
Summer Session, 1943

June 28 - August 6

VOLUME 34 : MARCH 1, 1943 : NUMBER 14

To place the facilities of the University at the disposal of those persons who have only a part of the summer free for study, the Summer Session of Cornell University this year offers courses ranging from one to six weeks in length. These courses have been selected to meet the needs of several groups: teachers who wish to continue their professional training; graduate students who wish to pursue work leading to advanced degrees; undergraduates enrolled in Cornell University and in other institutions who wish to accelerate their programs of study but cannot attend a summer term; and other persons who wish to further their education by study during the summer months.

CALENDAR

The Summer Session of 1943 will open on Monday, June 28, which will be devoted to registration. Instruction will begin on Tuesday, June 29, and will end on Wednesday, August 4. Classes will meet on Saturday of the second week, July 10, but in most courses no other Saturday classes will be held. In field courses in the biological sciences and in geography and geology, field trips are sometimes scheduled for Saturdays. Final examinations will begin on Thursday, August 5, and the Session will end at the close of examinations on Friday, August 6.

ADMISSION

Application for admission to the Summer Session of 1943 must be made on the special form printed on pages 13 and 14 of this Announcement. In most cases the information called for on this form will be sufficient. However, undergraduates registered in institutions other than Cornell University will be required to submit evidence of good standing and a program of courses approved for credit by an officer of the institution in which they are candidates for a degree. An additional form will be mailed to such applicants on receipt of the application for admission. Applicants just graduating from high school are admitted only if they are entering a college in the fall term, or if their proposed Summer Session work is appropriately related to some other program of work. Such applicants will therefore be required to fill out an additional form which will be mailed upon receipt of the application for admission. Applications should be filed early, and late applicants who are admitted may unavoidably be delayed in registering. *A certificate of admission signed by the Director is a prerequisite for registration in the Summer Session.*

The work of the Summer Session is planned to put the facilities of the University at the disposal of those persons who can use them to good advantage and for serious purposes during the summer period. Admission, however, cannot be granted to persons inadequately trained

for the work they propose, or whose records in Cornell University or elsewhere are unsatisfactory; neither will admission be granted to persons whose purposes seem inadequate or inappropriate or better served by other work or work at other institutions.

CREDIT

With the exception of some of the unit courses of one to three weeks in length, all courses offered in the Summer Session are accepted for credit in one or more of the Schools and Colleges of the University, when taken by matriculated students in those Schools and Colleges. Undergraduates enrolled in other institutions, before admission to the Summer Session, will submit a program of courses approved for credit by an officer of the institution in which they are candidates for a degree. On registration day they will register for the courses of this program, and changes may only be made by permission of the Director. At the end of the Session, an official transcript of the Summer Session record of each undergraduate student will be sent to the institution in which that student is registered as a candidate for a degree. Transcripts will also be furnished in the same way for those students admitted to other institutions for September entrance. Certification for courses completed at the graduate level will be furnished for teachers and others not registered in the Graduate School who request such certification.

ADVANCED DEGREES

Credit toward the Master's degrees granted by Cornell University and, with some restrictions, toward the degree of Doctor of Philosophy may be earned during the Summer Session. All candidates must be admitted to the Graduate School before beginning their work toward these degrees. Full information about the requirements for admission to the Graduate School and for the several graduate degrees is given in other announcements which will be sent upon request.

SCHEDULES

Summer Session students are required to take courses amounting to four semester hours of credit; they are advised to register for a schedule of six semester hours, and are permitted under certain circumstances to register for courses amounting to eight semester hours.

Undergraduates are required to register for a schedule of six semester hours unless permission for a lighter schedule is granted by the Director. The schedule of a Summer Session student who is also registered in the Graduate School of Cornell University is determined by his special committee.

FEES

The tuition fee is \$60. For unit courses, of one to three weeks in length, the tuition fee is \$12 per week. Laboratory fees and similar incidental fees are charged for materials or for special services. Special

fees are charged for individual instruction in music, tennis, and a few other subjects.

Summer Session students registering for six weeks will pay a health service and infirmary fee of \$4.50. Students registering for shorter periods will not pay this fee and will not have the benefits of this service.

LIVING QUARTERS

Two residential halls for women and several cottages on the campus are open to Summer Session students. In Prudence Risley Hall and Balch Halls board is provided; the charge in these halls for board, room, and an allowance of laundry is \$108 for the six weeks. Women living in the cottages may obtain meals in the cafeterias and dining rooms on the campus at a cost of \$1.50 to \$2.00 per day; the charge for rooms varies with the room and cottage.

All undergraduate women, whether registered in Cornell University or in other institutions, and all other women less than twenty-one years of age, are required to live in the residential halls for women or in sorority houses, and to take their meals there.

A list of rooms in private houses, and of apartments and houses for rent, is prepared about June 1. All inquiries about rooms for women, either in the residential halls or elsewhere, and requests for this list should be addressed to the Manager of Residential Halls, Morrill Hall.

No residential halls will be available for men this summer. For a list of rooms in private houses and of apartments for men, address Mr. E. A. Whiting, Willard Straight Hall, after June 1.

FOREIGN STUDENTS

The University maintains on its staff a Counselor to Foreign Students whose duty it is to look after the welfare of all students from other countries. It is suggested that all foreign students write to him before coming to Ithaca, or call upon him soon after arrival. He will be glad to help them find suitable living quarters and in other ways. Letters of this kind should be addressed to Mr. Donald C. Kerr, Counselor to Foreign Students, Cornell Cosmopolitan Club, Ithaca, N. Y.

COURSES OF INSTRUCTION are given below under departmental headings alphabetically arranged. Because of various uncertainties, the right is reserved to cancel any course. It may also be necessary to substitute other instructors for the ones named. Courses with any considerable enrollment will not be cancelled unless absolutely necessary, and advanced courses will be continued with smaller enrollments than will be required for elementary courses. Unit courses, less than six weeks in length, are indicated by asterisks, and their dates are indicated.
